# About Us

Established in 2024, we are a dynamic pharmaceutical company headquartered on Kahilipara Road, Odalbakra, in Guwahati City. Our portfolio spans a diverse range of products, including pharmaceuticals, nutraceuticals, herbal remedies, medical supplies, and contraceptive products. With expertise in marketing, distribution, and storage, we are committed to delivering quality healthcare solutions that make a difference in people's lives.

## *Our Vision*

Our vision is to contribute to a healthier world where quality healthcare is accessible and affordable for all. We are dedicated to advancing effective medicinal products that safeguard lives and improve well-being. By blending innovation with a commitment to sustainability, we aim to create a healthier planet and support the journey toward a future where every individual has the opportunity for a better quality of life.

Our company offers a wide range of products, committed to delivering excellence and value to our esteemed customers. Quality management is our top priority, and we continuously strive to enhance our products by partnering with market leaders and industry experts. We actively monitor customer feedback, using it to improve product quality, delivery methods, and pricing to best meet their needs. Customer satisfaction and market demand inspire us to uphold the highest quality standards. By blending the best of science and nature, we are dedicated to serving humanity and ensuring sustainable growth for our company over the long term.

## 1. Indiliv-DS Syrup

### Liver Tonic

₹185

INCLUDING GST

Super Formulation  
Fortified with Kadu,  
Kalmegh & Kasni

Kadu, Kalmegh, and Kasni are powerful Ayurvedic herbs known for their benefits in promoting liver health and aiding digestion:

#### 1. Kadu (Picrorhiza kurroa)

##### Liver Health:

Acts as a hepatoprotective (liver-protecting) agent, helping to detoxify the liver and regenerate damaged liver cells.

Helps in managing liver disorders like jaundice, hepatitis, and fatty liver.  
Reduces inflammation in the liver due to its anti-inflammatory properties.

##### Digestion:

Stimulates bile secretion, which aids in the digestion of fats.  
Helps in managing conditions like indigestion and loss of appetite.

#### 2. Kalmegh (Andrographis paniculata)

##### Liver Health:

Rich in andrographolides, compounds that support liver detoxification and protect against liver damage.

Boosts liver function and helps manage liver conditions such as cirrhosis and viral hepatitis.

Acts as an antioxidant to reduce oxidative stress in liver cells.

##### Digestion:

Improves digestive fire (Agni), relieving issues like bloating, gas, and constipation.  
Possesses bitter properties that stimulate appetite and support gut health.

#### 3. Kasni (Cichorium intybus)

##### Liver Health:

Known for its liver-detoxifying properties, it helps flush toxins from the body.

Promotes the production and flow of bile, enhancing liver function.

Helps prevent and manage fatty liver and other liver-related conditions.

##### Digestion:

Acts as a natural probiotic, supporting gut flora and improving digestion.

Relieves constipation and supports regular bowel movements.

Helps manage acidity and stomach discomfort.

## Product description

Indiemedic's Indiliv Liver Tonic is an Ayurvedic preventive medicine that is safe and effective in treating the liver. Our lifestyle can toxicate the liver, increasing the risks of liver diseases such as hepatic dysfunction, cirrhosis of the liver, and drug-induced hepatotoxicity. This tonic is the protection against all diseases and a way towards a healthy liver.

Indiemedic's Liver Tonic facilitates the rapid elimination of acetaldehyde and ensures protection from alcohol-induced hepatic damage.

## Product benefits

- Indiemedic's Liver Tonic improves digestion and promotes healthy body growth.
- It helps in liver problems such as fatty liver and alcoholic liver problems.
- It acts as a liver detoxifier and helps cleanse out harmful toxins in your body naturally.
- Indiemedic's Liver Tonic reduces the feeling of sluggishness, increased immunity, energy, and vitality.

## 2. Pantoj - DSR

### Pantoprazole and Domperidone Capsules

**₹120**  
INCLUDING GST

#### PANTOJ DSR 30mg/40mg Capsule

PANTOJ DSR 30mg/40mg Capsule neutralizes the acid in the stomach and promotes easy passage of gas to reduce stomach discomfort. It is taken without food in a dose and duration as advised by the doctor. The dose you are given will depend on your condition and how you respond to the medicine. You should keep taking PANTOJ DSR 30mg/40mg Capsule for as long as your doctor recommends. If you stop treatment too early your symptoms may come back and your condition may worsen. Let your healthcare team know about all other medications you are taking as some may affect, or be affected by this medicine.

## Product description

### **Indiemedic's Pantoprazole Gastro-Resistant and Domperidone Prolonged-Release Capsules I.P.**

It prevents the release of stomach acid and relieves symptoms of food pipe lining inflammation (esophagitis), and gastroesophageal reflux disease (GERD), or heartburn.

## Product benefits

- Indiemedic's PANTOJ DSR capsule is an acidity medicine containing pantoprazole and domperidone as the main components.
- It is used for the treatment of heartburn, acidity, ulcers, acid reflux, etc.
- It is also helpful in nausea, vomiting, and fullness and prevents the backflow of undigested food to the food pipe.

## 3. INDIMONT-LC

### Montelukast Sodium & Levocetirizine Hydrochloride Tablet I.P.

₹120

INCLUDING GST

## Product description

### **Montelukast Sodium & Levocetirizine Hydrochloride Tablets I.P.**

Composition -

Each uncoated dispersible tablet contains:

Montelukast Sodium I.P. - 4 mg.

Levocetirizine Hydrochloride I.P. - 2.5 mg.

Colour - Yellow Oxide of Iron

## Product benefits

MONTELUKAST+LEVOCETIRIZINE belongs to a class of drugs called antihistamines or anti-allergics.

It treats sneezing, runny nose, and allergic skin conditions due to various allergies and hay fever (seasonal allergy).

Levocetirizine and Montelukast work together to alleviate asthma symptoms such as wheezing, coughing, shortness of breath, and chest tightness by reducing airway inflammation and constriction, making it easier to breathe and improving overall lung function.
